IGF KYOTO 2023

Our story

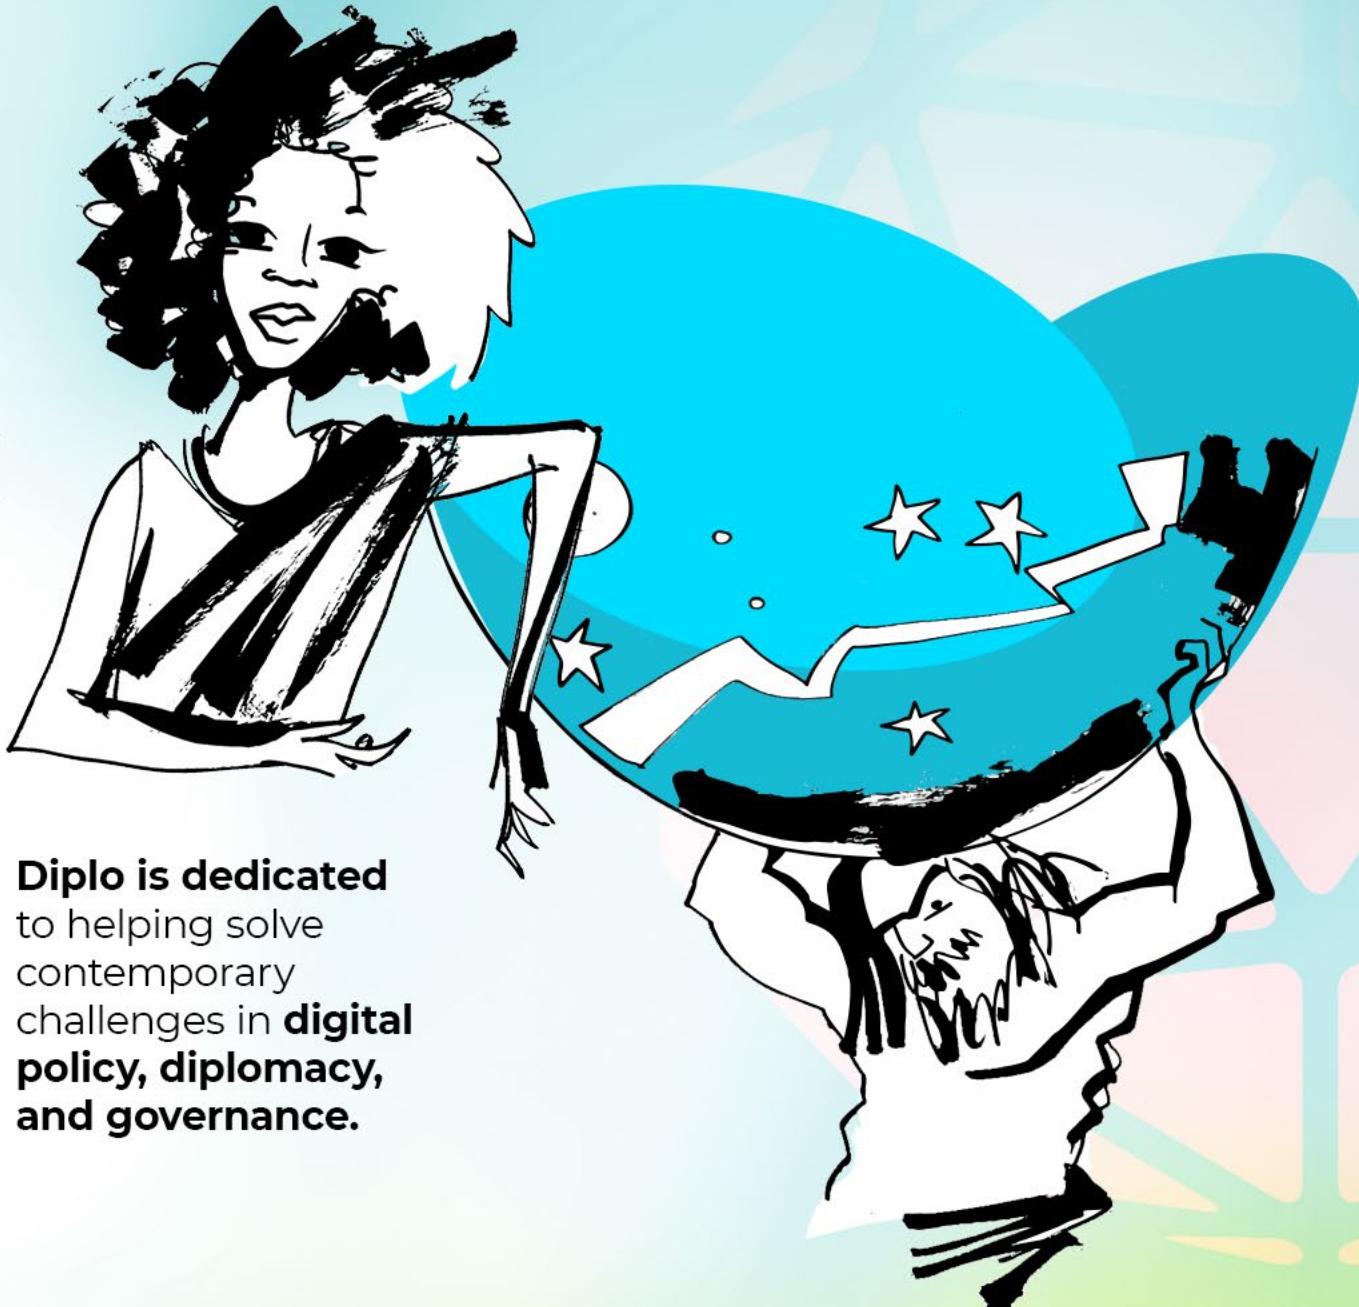

'Diplo's roots can be traced back to 1992, when we realised there was a need to merge ICT tools with diplomatic practice. Computers were quickly becoming important, and the world was changing fast. It meant that diplomacy also needed to adapt quickly to a new playing field.'

Prof. Jovan Kurbalija, Founding Director of Diplo

Since then, we've been evolving, expanding, and adapting our priorities in line with our original vision: **working to foster innovation, inclusion, and impartiality in digital governance and diplomacy.**

We are...

Dedicated

Diplo is dedicated
to helping solve
contemporary
challenges in **digital
policy, diplomacy,
and governance.**

Inspired

At Diplo, **our work is always inspired** by our core values and cutting-edge expertise.

Peaceful

We believe in peace over conflict,
which is why we constantly work
to increase the impact of
diplomacy and digitalisation.

Legacy

Our work and our alumni have already left a distinctive mark
and continue to effectively address contemporary diplomacy, digital policy, and global governance issues on local and global levels.

Original

From events and publications
to courses and apps we create,
we are originally Diplo.

What we do...

Realising the importance of data-based policies early on, we constantly research and analyse digital policy developments. We share our findings with the world through reports, events, webinars, videos, and AI-driven tools. We develop capacities in the areas of digital diplomacy and governance.

Research

Discover cutting-edge insights and expert analysis on the evolving landscape of diplomacy in the digital age.
